

Towels & Rags

Extra tough and ultra absorbent!

WypAll® Disposable Towels and Wipes

• Ideal alternative to laundered shop towels

L40 wipers are general-purpose wipes for a wide variety of industrial and personal cleaning tasks. Their unique base sheet technology creates a sponge-like inner layer that easily absorbs liquids and oils. Ideal for absorbing large spills or leaks, routine industrial cleaning and maintenance, and cleaning of hands and face. White, except for POP-UP box (blue).

X60 wipers are light-duty wipers tough enough for big jobs, but gentle enough for use on hands and face. Reinforced for extra scrubbing power. Wipes contain no adhesives or binders, ensuring no residues are left behind. Ideal for applying paint thinners and solvents, adhesive clean-up, and for removing grease and soil in tight areas. White.

X70 wipers are heavy-duty industrial wipers. They're guaranteed to absorb more water and oil than any shop rag. Use to clean up oil, grime and solvents with one wipe. Their long-lasting performance extends usage and reduces waste, making them an economical alternative to scrap rags and shop towels. Blue.

X80 Towels are the ultimate heavy-duty wiper/shop towel. Softer and more absorbent than ordinary cloth shop towels, they're an ideal choice for heavy-duty machine cleaning, prepping with solvents, cleaning rough surfaces and wiping away metal shavings. Pound for pound, X80 wipes absorb more water and oil than regular cloth towels. White.

Terry Cloth Towels & Multipurpose Shop Rags

Use these 100% cotton towels and rags for a variety of jobs around the plant.

Terry cloth towels are ideal for cleaning, polishing, washing and wiping. Choose from two sizes.

Wiping cloths are extra-thick and soft. They aren't pre-bleached, which makes them more absorbent. Use for staining, painting and cleaning.

Multipurpose shop rags are hemmed and extra-thick for heavy-duty jobs. Washable and reusable.
