

**Herbicides**

**Product SPOTLIGHT**

**Prevents growth for up to one year!**

**Barren Total Kill Herbicide**

- Non-selective; use to control all vegetation
- Fast knockdown action

**BEST!  
SELLER!**

This powerful non-selective herbicide acts as a soil sterilant, offering a total kill and preventing growth for up to one year. Ideal for use along pipelines, around buildings, at loading ramps, in parking lots—anywhere you need to prevent all vegetation. This product should not be used in residential/recreational areas and must be applied outside the dripline of trees and other desired vegetation.

Barren herbicide is available in an aerosol can or in bulk 1-gallon or 5-gallon containers. The aerosol can features a pinpoint accurate nozzle for a fast and easy way to apply the product. 1 gallon and 5 gallon herbicides can be applied directly with anything from a sprinkling can to a large sprayer; no dilution required. One gallon treats up to a 1000 sq ft area.

**Note:** May be restricted in certain states due to VOC compliance. Please check with your local governing body to ensure compliance with all laws and regulations. See Vacate Total Kill Herbicide (at right) for VOC-compliant alternative.

**Shipping:** Quantities of 7+ of the 5-gallon size ship motor freight.

**Weed Easy Total Kill Herbicide**

- Easy-to-spread granular form
- Non-selective; use to control all vegetation

This granular non-selective herbicide kills a wide range of annual and perennial weeds and grasses. It offers a total kill with long lasting residual action. This product should not be used in residential/recreational areas and must be applied outside the dripline of trees and other desired vegetation.

The granular form is quick and easy to apply and is great around fence edges. Just apply at a rate of 200 to 300 lbs per acre; or 0.5 to 0.68 lb per 100 sq ft. Apply using fertilizer spreader or shaker-type applicator.

**Note:** Apply early in the season for best results.

**Shipping:** Higher quantities ship motor freight. Contact USABlueBook for more information.

**Vacate Total Kill Herbicide**

- Long-lasting residual action—up to 12 months
- Highly recommended for municipal weed control

Vacate is a specially formulated, ready-to-use non-selective herbicide that offers total kill control over a wide variety of annual and perennial weeds and grasses. Residual action makes it perfect for long-lasting weed control or as a semi-soil sterilant. Use around buildings, industrial sites, parking lots, loading ramps, fence rows, storage yards and tanks.

Vacate herbicide is available in 1-gallon or 5-gallon containers. Apply directly with anything from a sprinkling can to a large sprayer—no dilution required. One gallon treats up to a 1000 sq ft area. Bulk containers up to 55 gallons are available; contact USABlueBook for more information.

**Note:** Not available for sale in California. This item may be restricted from sale in certain states. Please check with your local governing body to ensure compliance with all laws and regulations.

**Zap-It Grass and Weed Herbicide**

- Effective against all plant types, annual and perennial
- Non-selective weed control
- Ideal for spot killing weeds around the plant

Specially formulated liquid weed control. Great for killing weeds around trees, bushes, fences, sidewalks, and buildings. Apply directly to weeds with sprayer. No dilution necessary. Yellowing will appear in one week and cause a complete kill in 2 to 4 weeks. Avoid contact with desirable plants. Do not apply during windy days or when rain will occur within 24 hours. Not for use in or around aquatic environments.

**Shipping:** Additional shipping fees apply. Quantities of 7+ of the 5-gallon size ship motor freight.
