### Pelican® Cases

- Protect your instruments!

We've gotten really tired of seeing the poor quality of cases supplied by some manufacturers. Some are blow-molded cases with hinges made so cheaply that they'll eventually just fall off, and made from thin plastic that if dropped once, can shatter or crack. So we've found cases that will last!

Pelican is the industry leader in protective cases. Their cases have a lifetime warranty, are watertight to 30 ft, and are unbreakable. Each case comes with pick-and-pluck foam so you can configure your case however you wish to, not the way the factory says it should be.

### Let's Talk Safety

- A fast, easy way to reinforce critical safety topics
- Ready-to-use safety talks eliminate prep time

*Let's Talk Safety* makes it easy to spend a few minutes each week communicating with employees about working safely. This handy book features 52 safety briefings—one for every week of the year. Each briefing covers a single safety topic tailored to the specific needs of water utility employees, and includes links to additional resources. 146 pages, 2019.
