

Product SPOTLIGHT

Safety Can Storage Cabinets

- Choose from floor-standing or tower-style styles
- Cabinets meet OSHA and NFPA Code 30 requirements

Keep flammable liquids safe near work areas. These cabinets feature 18-gauge steel-reinforced double-wall construction and 1½" of air space for proper ventilation. Shelves can support up to 350 pounds, and are adjustable to accommodate different can sizes and shapes. Select either manual- or self-close doors. Each unit features a 2" vent with fire baffle and cap, a grounding connection, 3-point key-lock doors, and 2" raised, leakproof doorsills. Their high-gloss powder finish is yellow with a red warning notice.

Choose from floor-standing or tower-style models. Use tower-style models in areas where floor moisture is a concern. Their 4" legs allow positioning over vents, easy under-cabinet cleaning, and individual leg height adjustment. They also are easier to lift with a forklift or pallet jack.

Note: Additional shelves are available; call for more information.

Shipping: Cabinets ship motor freight.

Each shelf supports up to 350 lbs!

Floor-Standing Model 332737

Tower-Style Model 332745
