

USA BlueBook Standard-Duty Mixers

- Great for general-purpose and small batch mixing
- Coated with USDA-approved stainless steel paint for corrosion resistance and durability
- Five-year warranty—best in the industry

USABlueBook standard-duty mixers feature an adjustable 316 SS shaft that's ideal for 55-gallon drums. A ball-and-socket C-clamp mount allows for easy positioning. Mixers feature a TEFC motor with on/off switch, and come prewired with a cord and plug. Choose from fixed- or variable-speed models.

Clamp-mount mixers mount on a tank stand for use with open-top tanks and drums. **Drum-mount mixers** feature collapsible propellers and a removable 2" NPT bung adapter for installation on both open and closed-top drums.

Choose from mixers with either a single or dual propeller. Dual-propeller mixers are recommended for most applications. The second propeller, which is height adjustable and removable, is recommended for use when your liquid depth is at least 1.5 times the drum or tank diameter. Single-propeller mixers are suitable for applications where the depth of the liquid is approximately equal to the drum or tank diameter.

Note: Models with PVC-coated shafts and propellers, and alternate motor types (e.g., explosion-proof or air-driven) are available as special order. Contact USABlueBook for more information.

Variable-speed dial

Clamp-Mount Mixers

HP	VOLTAGE	OUTPUT (RPM)	SHAFT (DIA x L)	SINGLE PROPELLER STOCK #	EACH	DUAL PROPELLER STOCK #	EACH
MIXERS WITH FIXED-SPEED MOTOR

Drum-mount mixers feature:

Collapsible Propeller (shown closed and open)

Removable Bung Adapter

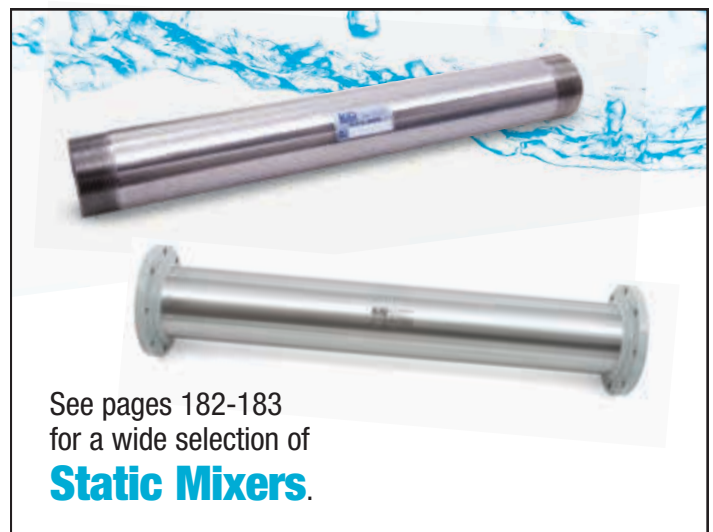

See page 1669 for our USABlueBook Mixer Selection Guide.

Quick Mixing Blades

- Mixing capacities from 1 to 50 gallons
- Use with any standard power drill to mix chemicals in a pinch

These mixing blades turn any standard power drill into a portable mixer on the fly. Simply tighten the power tool chuck onto the shaft of the mixing blade, and you're ready to mix. Long-lasting 304 stainless steel construction stands up to a wide range of chemicals. Other sizes are available for additional mixing capacities. Contact USABlueBook for more information.

MIXING CAPACITY	SHAFT LENGTH	DIAMETER	STOCK #	EACH
1 to 2 Gallons	30"	2 5/8"	85132	\$
2 to 5 Gallons	20 1/2"	3 3/4"	85133	
5 to 10 Gallons	20 1/2"	5 1/8"	85134	
10 to 50 Gallons	40"	5 1/8"	85135	

See pages 182-183 for a wide selection of **Static Mixers.**
