

TOOLS Curb Box Keys & Valve Keys

Shown in fully collapsed position

PlantPRO™ 6-in-1 Valve Wrench Tools

- The "Swiss Army Knife" of the water industry
- Versatile, compact design

Our PlantPRO valve tool combines six of the most popular waterworks valve keys and wrenches into one compact assembly. It is an excellent choice when you need to have all of these tools on hand for occasional use, but have limited space available to store them.

The gate valve wrench and curb box key utilize a 4- to 7-ft telescoping shaft. Two-hole cover wrench attachment is also handy for turning small gate valve handles below grade. The standard $27/32$ " pentagon wrench incorporates an internal capture pent designed to help lift meter lids after loosening. All components slide together and lock in place with locking pins. Tool measures only 4" x 3" x 51" in fully collapsed position and weighs 23 lbs.

Kit includes:

- A** 2" gate valve wrench with 2-way swivel
- B** Curb box key, $5/8$ " slot
- C** Rod key 3', $15/16$ " with $3/8$ " slot
- D** 2-hole cover wrench
- E** Pentagon wrench with capture pent
- F** Adjustable fire hydrant wrench with spanner
- G** Extension
- H** Handle

Universal Curb Box and Valve Key Kits

- Everything you need in one handy case

With this kit, you always have a complete set of valve tools on hand to handle most applications. If you have a variety of curb box styles, sizes and different size valves, this is like having a complete tool set by your side. Rugged canvas storage bag is only 42" long for easy storage in your trunk or pickup. Bag includes extra compartment for optional hydrant wrench, B-box key, etc.

Kit includes:

- A** (1) 2-hole cover remover
- B** (1) Curb box rod adapter
- C** (1) $3/4$ to 1" curb stop key, $1/4$ " diameter with $5/8$ " slot
- D** (1) $11/4$ to 2" curb stop key, $13/4$ " diameter with $3/4$ " slot
- E** (1) 2" square gate valve key
- F** (2) Extender tubes to give up to 9-ft extension
- G** (5) Locking pins
- H** (1) Carrying bag with hand strap
- I** (1) Handle
