

Swivel feature makes positioning easy!

**BEST!
SELLER!**

Hydrant Setters

Designed with the help of one of our own people, a field operator for over 20 years, this sling is especially good because the hydrant stays in a totally vertical position while suspended, making it easier to line up flange connections. Connects to the two 2 1/2" outlets.

DESCRIPTION	STOCK #	EACH
Hydrant Setter	22510	\$

Hydrant Lifters

- Meets OSHA standards

Made from Grade 8 chain and other components which provide lifting capacity far in excess of the 5:1 safety factor specified for lifting a 1000-lb hydrant. Lifting rings are designed to fit over both 2 1/2" barrels, which keeps the hydrant vertical for easy maneuvering.

DESCRIPTION	STOCK #	EACH
Hydrant Lifter	75180	\$

Manhole/Catch Basin Setter Slings

- 1000-lb capacity

1" diameter spreader rod adjusts from 20 1/2 to 30". "L" shaped brackets welded to the end of the rod provide 1/4" thick x 1 1/4" flat surface to lock securely under any manhole ring body. 1/4" Grade 8 chain and 5/16" shackles are utilized to achieve a lift capacity of 1000 lbs. Painted black finish. Weighs 16 lbs.
