

USA BlueBook BRAND PRODUCTS

Quickly dissolve grease, fats and oils!

NPE free!

USA BlueBook Drain Cleaners

- Choose between orange or pine scents
- Will not disrupt bacterial action

USA BlueBook drain cleaners quickly dissolve grease, fats, oils and other organic debris to keep drains free flowing. Use them to clean and deodorize grease traps, septic systems, sewer lines, lift stations and any other problem areas in your system or around the plant. Bacterial action will not be disrupted.

These cleaners are formulated either with 50% d-Limonene (citrus orange derivative) or 40% Dipentene (pine derivative). Each is blended with grease-stripping solvents and emulsifying agents—making them excellent alternatives to hazardous acids or caustic drain cleaners. They are completely free of NPEs (nonylphenol ethoxylates), which have been shown to negatively impact the environment.

Shipping: 30- and 55-gallon drums and quantities of 5+ in smaller sizes ship motor freight.

Concentrated formula—use less product!

YOUR BEST VALUE!

USA BlueBook Odor Ban with Degreasers

- Deodorize and degrease at the same time
- Choose from orange or pine formulas

Odor Ban is a powerful odor-neutralizing degreaser that actually eliminates—not just masks—objectionable odors. Odor Ban quickly and effectively dissolves fats, oils and greases, which allows the liquefied grease to flush into the treatment plant for disposal.

NPE free!

Apply easily by pouring or dripping into sewers, lift stations, manholes and waste streams. It's so effective that just a few parts per million quickly strips the heaviest of grease accumulations.

Choose from two Odor Ban formulas: 85% d-Limonene (orange) or 90% Dipentene (pine). These active ingredients, along with emulsifying agents, will leave behind a natural orange or pine scent.

Shipping: 30- and 55-gallon drums and quantities of 5+ in smaller sizes ship motor freight.

Dosage Schedule

Use from 1 to 5 gallons of drain cleaner per 250,000 gallons of sewage, depending upon application.

Dosage Schedule

To degrease lift stations, wet wells, sewer mains, drains and traps, use 3 gallons per 250,000 gallons of sewage. Some situations could call for as little as 1 gallon or as much as 5 gallons per 250,000 gallons. To deodorize aerators, digesters, filters, drying beds, dumps and landfills, dilute 1:50 with water and spray liberally over the odor-causing surface.
