

## Pipe Cleaning Pigs

- Remove heavy deposits in water piping systems that can be pressurized

Flexible foam pigs have an urethane elastomer coating, causing a scraping action when forced through piping. Models shown here work with ductile iron, cast iron and PVC pipe. Pig length is approximately 1½ times the diameter.

These pigs feature medium density foam (approximately 5- to 8-lb density) and a tough coating that yields a strong resistance to wear yet remains flexible. All four styles may be used in pipelines with minor cross sectional diameter reductions or restrictions.

**Note:** Flexible foam poly pigs are available in larger sizes and with different coatings and hardnesses. They are also available for other applications (new construction clean-up, rehabilitation, routine maintenance) and for other types of pipe (HDPE, asbestos-cement, pre-stressed concrete pipe, mortar and/or epoxy-lined pipe, etc.). Contact USABlueBook for information.

## Drain Flushers

- ¾" GHT swivel inlet

Use these flushers as miniature hydraulic flushing plugs. They expand and seal with water pressure—a small slit in the end allows water to flow through and create pressure against the restriction in the pipe.

NOMINAL SIZE	OPERATING PRESSURE	STOCK #	EACH

## Seamless Aluminum Skimming Net Poles

- Telescoping and fixed

Telescoping styles have beefy chuck locks, designed for long life under extreme conditions. Handle has a very nice rubber golf club-type grip so you won't drop the whole thing in the plant. Pool-style connectors.

8 to 16'	2-pc Adjustable	88489*	
5 to 15½'	3-pc Adjustable	88490*	

\* Shipping: Additional handling charges apply.

## Fiberglass Skimming Net Poles

These poles are very strong and long lasting. These flex more than aluminum, so they are not suggested for trying to lift heavy objects such as a net full of grease. They are really great if you have nearby electric lines that you worry someone may hit by accident. Built with pool-style connectors. **Ships UPS 3-day select or motor freight.**

LENGTH	STYLE	STOCK #	EACH
8 to 16'	2-pc Adjustable	24946	\$

**Heavy-duty**

## Manhole Grease Scraper Attachment

- 5½" wide
- Stainless steel blade

Designed for scraping grease from the inside walls of lift stations, this 5½" wide blade is curved for even surface contact. Has adapter that fits heavy-duty aluminum poles listed above. Remember that this attachment, when used with the aluminum pole, is for scraping grease, not chipping concrete or ice.

DESCRIPTION	STOCK #	EACH
5½" Scraper	25000	\$

Use with the skimming net poles above.
