## Hour Meters & Counters

- Choose from a variety of screen, power and display options

USABlueBook offers a wide range of hour meters and counters for a variety of applications. Redington meters are the industry leader; choose from four popular models. We also offer an alternative model from MarkTime®.

**Redington 710 meters** feature large easy-to-read numbers and a tough Lexan® cover. **Trumeter 711 meters** have a large 7-digit display with various voltage inputs. **Redington 732/722 meters** are quartz-time based for accurate, long-term time keeping. Optional mounting gasket (listed under accessories) makes these conform to NEMA 4X and 12 specifications.

**Redington 34 meters** feature an LCD screen with large 7 mm numbers. Optional mounting gasket (listed under accessories) makes these conform to NEMA 4 and 4X specifications. **Redington 63 meters** have a reflective LCD display with eight large 8 mm digits, and measure in your choice of hours, minutes or seconds. **Redington 10 counters** are rugged electromechanical counters.

**MarkTime® 635 meters** are your basic everyday counters.
