Hach Chlorine Test Kits

- For process control testing only

Use these popular color disc kits to measure free chlorine, total chlorine or both. Choose from single-, dual- or triple-range kits. Stock # 32775 also determines pH using phenol red indicator solution.

Includes: reagents, color disc, color comparator, tube and carrying case.

Range

Single-range kits*: 0.1 to 3.5 mg/L
Dual-range kits: 0.02 to 0.7 and 0.1 to 3.5 mg/L
Triple-range kits: 0.02 to 0.7, 0.1 to 3.5 and 0.5 to 10 mg/L
Resolution: 0.1 mg/L
Sample size: 5 mL

* Stock # 32775 also detects pH: 6.5 to 8.5 pH range; 0.1 pH resolution.

Test Kits

MFR #	DESCRIPTION	# TESTS	STOCK #	EACH
CN-66F (223102)	Single-Range Free Chlorine Kit	100F	32467	\$
CN-66T (223103)	Single-Range Total Chlorine Kit	100T	32468	
CN-66 (223101)	Single-Range Chlorine Kit	50F & 50T	32050	
CN-67 (1411100)	Single-Range Chlorine + pH Kit	100F & 100T	32775*	
CN-70 (1454200)	Dual-Range Chlorine Test Kit	100F & 100T	32483	
CN-80 (2129000)	Triple-Range Chlorine Test Kit	100F & 100T	77511	

Replacement Items & Accessories

LaMotte DC1500 Chlorine Colorimeters

- Use the same water sample for both free and total measurements
- Store, recall and download up to 500 data points
- Durable IP67-rated waterproof housing

Increase your efficiency with the DC1500—measure both free and total chlorine using the same water sample! These ultra-portable colorimeters feature an IP67 case and rechargeable lithium ion battery, making them ideal for use in the lab or out in the field.

Advanced features include simple menu-driven operation and a large back-lit graphical LCD screen that can be viewed in seven languages. Optional SMART Link software lets you download data from your meter to a Windows®-based computer for further identification, organization, manipulation or storage for later analysis. Data can be easily exported to other applications as a .csv file.

Colorimeters that use liquid reagents yield instantaneous results; liquid reagents have a 1-year shelf life. **Colorimeters that use tablet reagents** take a bit longer to react; tablet reagents have a 3-year shelf life. Both colorimeters feature a user-friendly keypad for simple calibration using primary standards. Use chlorine secondary standards to check calibration daily.

Includes: six 10-mL sample tubes, USB cable, USB wall plug, carrying case, reagents for 100 (tablet) or 144 (liquid) free and total chlorine tests, and instruction manual. 2-year warranty.

Range: 0 to 4.00 ppm (free & total)
Resolution: 0.01 ppm
Sample size: 10 mL
Memory function: 500 data points
Data output: USB
