USA BlueBook pH Buffers

NIST

• NIST Traceable

Feel confident that your standards are correct. Buffers 4.00, 7.00 and 10.00 are accurate to within ± 0.01 pH units at 25°C; buffers 2.00, 6.86, 8.00, 9.18 and 12.45 are accurate to within ± 0.02 pH units at 25°C.

All buffers are standardized to NIST-certified pH references. Lot number and expiration date are printed on each label. Store out of direct sunlight and use within 6 months after opening. Cubitainers are boxed and have a spigot for easy dispensing.

Available in 4-L Cubitainers
