Crossover with Pass-Thru Leg Straps 65130

Tongue-Buckle Leg Straps 49316

3M™ DBI-SALA® Delta™ II Harnesses

- One size fits all

Delta II full-body harnesses offer the safety protection you need, whatever your application. They feature spring-loaded stand-up back D-rings for quick and easy connection to your fall arrest devices. No-tangle design holds the shape of the harness, adding to your comfort and making it easier to put on.

Choose from vest-style or crossover-style harnesses with a variety of options. All harnesses feature forged alloy steel hardware for maximum strength and durability. Meets or exceeds all applicable industry standards, including OSHA and ANSI Z359.

3M™ Protecta® PRO™ Welding/Hot Works Harnesses and Lanyards

- Heat- and flame-resistant Kevlar® construction
- Harnesses feature a lightweight, comfortable design
- Lanyards limit arresting forces to 900 lbs

These harnesses and lanyards resist char splatter up to 700°F—great for welding, cutting or performing other maintenance projects involving sparks or fire.

Harnesses are constructed of lightweight and strong modacrylic-over-Kevlar fiber. A 5-point adjustment system ensures a perfect fit. Harnesses feature a single back D-ring and convenient built-in lanyard keepers. Weight capacity is 420 lbs.

Lanyards feature Kevlar webbing and plated alloy steel hardware for strength and corrosion resistance. They are 6' long and have self-locking snap hooks at each end. Energy-absorbing design limits arresting forces to 900 lbs. Weight capacity is 310 lbs. Choose from single- or double-leg lanyards.

Meets applicable OSHA standards and ANSI A10.32. Lanyards also meet ANSI Z359.1.

3M™ Protecta® Full-Body Harnesses

- Vest-style harness
- Fixed back D-ring reduces need for readjustment

330092

330095

Protecta full-body harnesses offer the perfect balance of fit and function. They feature easily adjustable spring-loaded torso buckles and lightweight hardware and connecting components. The auto-resetting lanyard keepers provide fast, easy parking of snap hooks and carabiners. Built-in impact indicator makes inspection simple.

Choose from back D-ring harnesses with or without side D-rings for positioning. Both feature pass-thru legs. All harnesses support individuals with equipment up to 420 lbs.

Meets or exceeds all applicable OSHA and ANSI standards including OSHA and ANSI Z359.11.
