

TOOLS Compaction Equipment & Shovels

Structron® Safety Hi-Vis Tools

- Increase worker visibility and safety

These rugged tools provide excellent visibility both day and night. Handles are coated in hi-vis safety green and feature two highly reflective 3M™ Scotchlite™ tape accents. Exceeds ASTM Type III.

A Round Point Shovels

Heavy-duty 48"L handle features a solid fiberglass reinforcing rod and a comfortable grip. Black 14-gauge #2 rounded blade head has a forward turned step design.

B Square Point Shovels

Heavy-duty 48"L handle features a solid fiberglass reinforcing rod and a comfortable grip. Black 14-gauge #2 square blade head has a forward turned step design.

C Drain Spade

The ideal tool for straight digging and working around existing structures. Heavy-duty 29"L handle features a solid fiberglass reinforcing rod and a comfortable Poly-D grip. 16" black 14-gauge #2 head has a forward turned step design.

D Hercules Post Hole Diggers

Hollow out holes for sign posts, flagpoles, fence posts and more. Heavy-duty 48"L fiberglass handle offers a comfortable grip. Standard 6.25" point spread.

E Bow Rakes

Great for moving soil and removing debris. Rakes feature a sturdy 16" forged head with 16 tines. Heavy-duty 60"L handle offers a comfortable grip.

F Aluminum Scoops

This scoop shovel blade features a durable #12 aluminum head. 29"L fiberglass handle with Poly D-grip provides great scooping leverage.

G Scrapers

These heavy-duty scrapers feature a 7" forged black head. Blade is secured to a 51"L solid fiberglass handle.

Picks & Mattocks

- Forged steel heads
- Mix and match heads with two types of handles

These sturdy picks and mattocks feature forged steel construction for long life. Choose from three models. The **railroad pick** is excellent for digging and prying in hard soils or sticky clay. Choose the **pick mattock** for breaking through hardened surfaces or loosening ground at the bottom of large planting holes. The **cutter mattock** features a cutting axe end for handling small tree roots.

We also offer two different handle types to use with your pick heads: wood or fiberglass. All handles are 36" in length.
